

Natural Origin and Sustainable Powder

Characteristics

- This product is a powder made from plant-derived ingredients with RSPO compliance. Nature-derived index (without water) based on ISO 16128 : 1.00
- Enhanced softness, moistness and shine/matte.

POWDER BASE™ BM14 (Under development)

○ INCI : MAGNESIUM MYRISTATE, BORON NITRIDE ○ 中文INCI : 肉豆蔻酸镁, 一氮化硼

★Shape

★Particle size

★Sensory evaluation

Feel evaluated on the back of the hand using a 5-point scale.

Large plate-like particles create glossy appearance

★Water repellency evaluation

Contact angle measured on artificial leather using a 3.0 μL water drop.

High gloss with pleasant texture

【Examples of application】

- Eye shadow
- Foundation
- Face powder

POWDER BASE™ BC14 (Under development)

○ INCI : CALCIUM MYRISTATE, BORON NITRIDE ○ 中文INCI : 肉豆蔻酸钙, 一氮化硼

★Shape

★Particle size

★Sensory evaluation

Feel evaluated on the back of the hand using a 5-point scale.

Matte appearance due to scaly particles

★Coefficient of kinetic friction

Coefficient of kinetic friction measured on artificial skin (2 × 5 cm) with uniformly applied sample (25 mg).

White and highly lubricity

【Examples of application】

- Foundation
- Face powder
